

Back-end (Ruby-on-Rails) Developer

2022-03-02

THE JOB

SuperYacht Times is looking for an experienced Ruby on Rails developer that excels in the backend part of the stack and wants to take our platform to the next level as we grow the company and team. Our technology team consists of Director, Front-end and Back-end engineers, UX specialist, Unity developer and 3D artists. We use a Scrum-inspired process to prioritise and plan work.

Our back-end system is evolving primarily on the AWS platform, serving multiple websites and APIs. It utilises a wide range of tools and technologies such as Ruby on Rails, Serverless, Elasticsearch, PostgreSQL, Redis, Memcached, Sidekiq, etc.

ABOUT YOU

You will work on optimising and growing our back-end stack, together with our Software Architect. As we are in the process of launching the next generation of our website, there will be a lot of development. You'll support our UX specialist and front-end developers to move the current front-end stack to a modern framework (React), implementing server side rendering, new APIs, and SEO related optimisations.

You can help us if you are highly proficient in the following:

- Ruby on Rails framework
- Relational database(s) e.g. Postgres, MySQL.
- Cloud provider(s) e.g. AWS, Google Cloud, Azure.
- RESTful API's

Next to the technical skills:

- You have strong communication skills.
- You are familiar with code reviews and pair programming.
- You advocate for simplicity, quality and maintainability.
- You are aware of the different options available to solve technical problems and can clearly explain those and propose solutions that balance both our short-term goals and long-term targets.

SUPERYACHT TIMES

Nice to have:

- DevOps experience: to help us further develop server infra towards full IaC infrastructure (including disaster recovery and auto scaling).
-
- Knowledge of GraphQL, Docker, React or another Front-end framework..

WHAT WE OFFER:

- A competitive salary.
- End-of-year bonus.
- A MacBook Pro or Windows laptop of your choice.
- Young, international, fun working environment alongside passionate people.
- Professional growth and learning opportunities.
- Broad scope of ownership and impact.
- Flexible vacation and working-from-home policy.
- The chance to work in the superyacht industry.

HOW TO APPLY

Send your CV and a cover letter to fabian@superyachttimes.com, along with other supporting information such as your GitHub profile.
